Habitat Unit & PolyUrbanWaters

looking for a Research Assistant!

(student/graduate/young professional) 25% TV-L 4
to help in the research project PolyUrbanWaters!

ABOUT US:

The Habitat Unit (Department for International Urbanism and Design) is a globally networked research and teaching centre developing new approaches, expertise and application-oriented tools relevant for global urbanisation and urban change processes. It is committed to an inclusive and rights based approach to urban policy, urban management as well as development-oriented and actor-driven planning. Based at the Institute of Architecture at the TU Berlin, the Habitat Unit promotes an extended understanding of urban and architectural design, which integrates spatial, material and cultural sensitivities with new models of participation, co-production and urban governance. (www.habitat-unit.de)

ABOUT POLYURBANWATERS:

PolyUrbanWaters is a research and project network funded by the German Federal Ministry of Education and Research (BMBF) that consists of academic institutions, municipalities, local and national government agencies, civil society and private-sector stakeholders from Indonesia, Cambodia, Laos, Thailand, Vietnam and Germany. Working through this network and on the ground in three pilot cities, the PolyUrbanWaters project aims to generate comprehensive scientific knowledge that helps develop practice-relevant strategic planning models for fast-growing cities and peri-urban areas in Southeast Asia, enabling them to implement polycentric approaches for water-sensitive urban development.

JOB DESCRIPTION:

40h/month - Starting ASAP October 2023 until February 2025

You will support the research team of the project PolyUrbanWaters with the organisation and management of the project, especially in the coordination of research partners, organisation of conferences and workshops, supporting travel planning and public relations. Additionally, you will support the team in mappings, graphical design, literature research, evaluation of qualitative and quantitative data and social media updates.

APPLICATION

Please send your application including your motivation letter, a short CV and portfolio (max. 5 MB) until **13.10.23** to habitat.unit@tu-berlin.de (RE: PolyUrbanWaters_application research assistant)

WHAT WE EXPECT

We are looking for a highly motivated and well-structured candidate with interest in the teaching and research topics of Habitat Unit, willing to work in an interdisciplinary research team. We expect good knowledge in German and English as well as good skills in Adobe Creative Suite (InDesign, Illustrator and Photoshop), Microsoft Office, CAD- and GIS-Software. Proficient in German in both written and spoken, and experiences in sustainable planning are desirable. Applicants can be students, graduates or young professionals of architecture, urban design, urban management, town and regional planning, landscape architecture, geography, urban sociology, graphic design and/ or related fields.
